AND OF THE COUNCIL****of 15 March 2006****on the harmonisation of certain social legislation relating to road
transport and amending Council Regulations (EEC) No 3821/85
and (EC) No 2135/98 and repealing Council Regulation (EEC)
No 3820/85****(Text with EEA relevance)****CHAPTER I****INTRODUCTORY PROVISIONS***Article 1*

This Regulation lays down rules on driving times, breaks and rest periods for drivers engaged in the carriage of goods and passengers by road in order to harmonise the conditions of competition between modes of inland transport, especially with regard to the road sector, and to improve working conditions and road safety. This Regulation also aims to promote improved monitoring and enforcement practices by Member States and improved working practices in the road transport industry.

Article 2

1. This Regulation shall apply to the carriage by road:
 - (a) of goods where the maximum permissible mass of the vehicle, including any trailer, or semi-trailer, exceeds 3,5 tonnes,

▼M3

- (aa) from 1 July 2026, of goods in international transport operations or in cabotage operations, where the maximum permissible mass of the vehicle, including any trailer, or semi-trailer, exceeds 2,5 tonnes, or

▼B

- (b) of passengers by vehicles which are constructed or permanently adapted for carrying more than nine persons including the driver, and are intended for that purpose.

2. This Regulation shall apply, irrespective of the country of registration of the vehicle, to carriage by road undertaken:

- (a) exclusively within the Community; or
 - (b) between the Community, Switzerland and the countries party to the Agreement on the European Economic Area.

3. The AETR shall apply, instead of this Regulation, to international road transport operations undertaken in part outside the areas mentioned in paragraph 2, to:

- (a) vehicles registered in the Community or in countries which are contracting parties to the AETR, for the whole journey;
 - (b) vehicles registered in a third country which is not a contracting party to the AETR, only for the part of the journey on the territory of the Community or of countries which are contracting parties to the AETR.

▼B

The provisions of the AETR should be aligned with those of this Regulation, so that the main provisions in this Regulation apply, through the AETR, to such vehicles for any part of the journey made within the Community.

Article 3

This Regulation shall not apply to carriage by road by:

- (a) vehicles used for the carriage of passengers on regular services where the route covered by the service in question does not exceed 50 kilometres;

 - (i) carrying materials, equipment or machinery for the driver's use in the course of the driver's work; or
 - (ii) for delivering goods which are produced on a craft basis, only within a 100 km radius from the base of the undertaking and on the condition that driving the vehicle does not constitute the driver's main activity and transport is not carried out for hire or reward;

▼B

- (b) vehicles with a maximum authorised speed not exceeding 40 kilometres per hour;
- (c) vehicles owned or hired without a driver by the armed services, civil defence services, fire services, and forces responsible for maintaining public order when the carriage is undertaken as a consequence of the tasks assigned to these services and is under their control;
- (d) vehicles, including vehicles used in the non-commercial transport of humanitarian aid, used in emergencies or rescue operations;
- (e) specialised vehicles used for medical purposes;
- (f) specialised breakdown vehicles operating within a 100 km radius of their base;

- (h) vehicles or combinations of vehicles with a maximum permissible mass not exceeding 7,5 tonnes used for the non-commercial carriage of goods;

▼M3

- (ha) vehicles with a maximum permissible mass, including any trailer, or semi-trailer exceeding 2,5 tonnes but not exceeding 3,5 tonnes that are used for the transport of goods, where the transport is not effected for hire or reward, but on the own account of the company or the driver, and where driving does not constitute the main activity of the person driving the vehicle;

▼B

- (i) commercial vehicles, which have a historic status according to the legislation of the Member State in which they are being driven and which are used for the non-commercial carriage of passengers or goods.

CHAPTER II

CREWS, DRIVING TIMES, BREAKS AND REST PERIODS

Article 5

1. The minimum age for conductors shall be 18 years.
2. The minimum age for drivers' mates shall be 18 years. However, Member States may reduce the minimum age for drivers' mates to 16 years, provided that:
 - (a) the carriage by road is carried out within one Member State within a 50 kilometre radius of the place where the vehicle is based, including local administrative areas the centre of which is situated within that radius;
 - (b) the reduction is for the purposes of vocational training; and
 - (c) there is compliance with the limits imposed by the Member State's national rules on employment matters.

Article 6

1. The daily driving time shall not exceed nine hours.

However, the daily driving time may be extended to at most 10 hours not more than twice during the week.
2. The weekly driving time shall not exceed 56 hours and shall not result in the maximum weekly working time laid down in Directive 2002/15/EC being exceeded.
3. The total accumulated driving time during any two consecutive weeks shall not exceed 90 hours.
4. Daily and weekly driving times shall include all driving time on the territory of the Community or of a third country.

▼M3

5. A driver shall record as other work any time spent as described in point (e) of Article 4 as well as any time spent driving a vehicle used for commercial operations that do not fall within the scope of this Regulation, and shall record any periods of availability, as defined in point (b) of Article 3 of Directive 2002/15/EC, in accordance with point (b)(iii) of Article 34(5) of Regulation (EU) No 165/2014 of the European Parliament and of the Council⁽¹⁾. This record shall be

⁽¹⁾ Regulation (EU) No 165/2014 of the European Parliament and of the Council of 4 February 2014 on tachographs in road transport, repealing Council Regulation (EEC) No 3821/85 on recording equipment in road transport and amending Regulation (EC) No 561/2006 of the European Parliament and of the Council on the harmonisation of certain social legislation relating to road transport (OJ L 60, 28.2.2014, p. 1).

▼ M3

entered either manually on a record sheet or printout or by use of manual input facilities on recording equipment.

▼ B*Article 7*

After a driving period of four and a half hours a driver shall take an uninterrupted break of not less than 45 minutes, unless he takes a rest period.

This break may be replaced by a break of at least 15 minutes followed by a break of at least 30 minutes each distributed over the period in such a way as to comply with the provisions of the first paragraph.

▼ M4

For a driver engaged in an occasional passenger service, the break referred to in the first paragraph may also be replaced by two breaks, of at least 15 minutes each, distributed over the driving period referred to in the first paragraph, in such a way as to comply with the provisions of the first paragraph.

▼ M3

A driver engaged in multi-manning may take a break of 45 minutes in a vehicle driven by another driver provided that the driver taking the break is not involved in assisting the driver driving the vehicle.

▼ B*Article 8*

1. A driver shall take daily and weekly rest periods.
2. Within each period of 24 hours after the end of the previous daily rest period or weekly rest period a driver shall have taken a new daily rest period.

If the portion of the daily rest period which falls within that 24 hour period is at least nine hours but less than 11 hours, then the daily rest period in question shall be regarded as a reduced daily rest period.

▼ M4

2a. Provided that road safety and the working conditions of the driver are not thereby jeopardised, a driver engaged in a single occasional passenger service with a duration of at least six consecutive 24 hour periods may derogate from paragraph 2, first subparagraph, by taking the daily rest period once within a maximum of 25 hours after the end of the previous daily rest period or weekly rest period, provided that the total accumulated driving time for that day has not exceeded seven hours. Complying with the same conditions, that derogation may be used twice in a single occasional passenger service with a duration of at least eight consecutive 24 hour periods. The use of that derogation is without prejudice to the maximum working time under the applicable law.

▼ B

3. A daily rest period may be extended to make a regular weekly rest period or a reduced weekly rest period.

▼ B

4. A driver may have at most three reduced daily rest periods between any two weekly rest periods.

5. By way of derogation from paragraph 2, within 30 hours of the end of a daily or weekly rest period, a driver engaged in multi-manning must have taken a new daily rest period of at least nine hours.

▼ M3

6. In any two consecutive weeks a driver shall take at least:

- (a) two regular weekly rest periods; or
- (b) one regular weekly rest period and one reduced weekly rest period of at least 24 hours.

A weekly rest period shall start no later than at the end of six 24-hour periods from the end of the previous weekly rest period.

By way of derogation from the first subparagraph, a driver engaged in international transport of goods may, outside the Member State of establishment, take two consecutive reduced weekly rest periods provided that the driver in any four consecutive weeks takes at least four weekly rest periods, of which at least two shall be regular weekly rest periods.

For the purpose of this paragraph, a driver shall be considered to be engaged in international transport where the driver starts the two consecutive reduced weekly rest periods outside the Member State of the employer's establishment and the country of the drivers' place of residence.

▼ M1

6a. ► **M4** By way of derogation from paragraph 6, a driver engaged in a single occasional passenger service may postpone the weekly rest period for up to 12 consecutive 24-hour periods following a previous regular weekly rest period, provided that: ◀

▼ M4

▼ M1

(b) the driver takes after the use of the derogation:

- (i) either two regular weekly rest periods; or
- (ii) one regular weekly rest period and one reduced weekly rest period of at least 24 hours. However, the reduction shall be compensated by an equivalent period of rest taken en bloc before the end of the third week following the end of the derogation period;
- (c) after 1 January 2014, the vehicle is equipped with recording equipment in accordance with the requirements of Annex IB to Regulation (EEC) No 3821/85; and

▼ M1

- (d) after 1 January 2014, if driving during the period from 22,00 to 06,00, the vehicle is multi-manned or the driving period referred to in Article 7 is reduced to three hours.

The Commission shall monitor closely the use made of this derogation in order to ensure the preservation of road safety under very strict conditions, in particular by checking that the total accumulated driving time during the period covered by the derogation is not excessive. By 4 December 2012, the Commission shall draw up a report assessing the consequences of the derogation in respect of road safety as well as social aspects. If it deems it appropriate, the Commission shall propose amendments to this Regulation in this respect.

▼ M4

The Commission shall examine the options for digitalising the journey form referred to in Article 16(4) in the context of broader digitalisation efforts in the road transport sector.

▼ M3

- 6b. Any reduction in weekly rest period shall be compensated by an equivalent period of rest taken *en bloc* before the end of the third week following the week in question.

Where two reduced weekly rest periods have been taken consecutively in accordance with the third subparagraph of paragraph 6, the next weekly rest period shall be preceded by a rest period taken as compensation for those two reduced weekly rest periods.

▼ B

7. Any rest taken as compensation for a reduced weekly rest period shall be attached to another rest period of at least nine hours.

▼ M3

8. The regular weekly rest periods and any weekly rest period of more than 45 hours taken in compensation for previous reduced weekly rest periods shall not be taken in a vehicle. They shall be taken in suitable gender-friendly accommodation with adequate sleeping and sanitary facilities.

Any costs for accommodation outside the vehicle shall be covered by the employer.

- 8a. Transport undertakings shall organise the work of drivers in such a way that the drivers are able to return to the employer's operational centre where the driver is normally based and where the driver's weekly rest period begins, in the Member State of the employer's establishment, or to return to the drivers' place of residence, within each period of four consecutive weeks, in order to spend at least one regular weekly rest period or a weekly rest period of more than 45 hours taken in compensation for reduced weekly rest period.

▼M3

However, where the driver has taken two consecutive reduced weekly rest periods in accordance with paragraph 6, the transport undertaking shall organise the work of the driver in such a way that the driver is able to return before the start of the regular weekly rest period of more than 45 hours taken in compensation.

The undertaking shall document how it fulfils that obligation and shall keep the documentation at its premises in order to present it at the request of control authorities.

▼B

9. A weekly rest period that falls in two weeks may be counted in either week, but not in both.

▼M3

10. No later than 21 August 2022, the Commission shall evaluate and report to Parliament and to the Council on whether more appropriate rules for drivers engaged in occasional services of carriage of passengers, as defined in point 4 of Article 2 of Regulation (EC) No 1073/2009 can be adopted.

Article 8a

1. The Commission shall ensure that information about safe and secure parking areas is easily accessible to drivers engaged in the carriage of goods and passengers by road. The Commission shall publish a list of all parking areas that have been certified, in order to provide drivers with adequate:

- intrusion detection and prevention,
- lighting and visibility,
- emergency contact points and procedures,
- gender-friendly sanitary facilities,
- food and beverage purchasing options,
- communications connections,
- power supply.

The list of such parking areas shall be made available on a single official website that is regularly updated.

2. The Commission shall adopt delegated acts in accordance with Article 23a to establish standards providing further detail concerning the level of service and security with regard to the areas listed in paragraph 1 and concerning the procedures for the certification of parking areas.

3. All parking areas that have been certified may indicate that they are certified in accordance with Union standards and procedures.

▼ M3

In accordance with point (c) of Article 39(2) of Regulation (EU) No 1315/2013 of the European Parliament and the Council ⁽¹⁾, Member States are to encourage the creation of parking space for commercial road users.

4. By 31 December 2024, the Commission shall present a report to the European Parliament and to the Council on the availability of suitable rest facilities for drivers and of secured parking facilities, as well as on the development of safe and secure parking areas certified in accordance with the delegated acts referred to in paragraph 2. That report may list measures to increase the number and quality of safe and secure parking areas.

▼ B*Article 9***▼ M3**

1. By way of derogation from Article 8, where a driver accompanies a vehicle which is transported by ferry or train and takes a regular daily rest period or a reduced weekly rest period, that period may be interrupted not more than twice by other activities not exceeding one hour in total. During that regular daily rest or reduced weekly rest period the driver shall have access to a sleeper cabin, bunk or couchette at their disposal.

With regard to regular weekly rest periods, that derogation shall only apply to ferry or train journeys where:

- (a) the journey is scheduled for 8 hours or more; and
- (b) the driver has access to a sleeper cabin in the ferry or on the train.

2. Any time spent travelling to a location to take charge of a vehicle falling within the scope of this Regulation, or to return from that location, when the vehicle is neither at the driver's home nor at the employer's operational centre where the driver is normally based, shall not be counted as a rest or break unless the driver is on a ferry or train and has access to a sleeper cabin, bunk or couchette.

▼ B

3. Any time spent by a driver driving a vehicle which falls outside the scope of this Regulation to or from a vehicle which falls within the scope of this Regulation, which is not at the driver's home or at the employer's operational centre where the driver is normally based, shall count as other work.

⁽¹⁾ Regulation (EU) No 1315/2013 of the European Parliament and of the Council of 11 December 2013 on Union guidelines for the development of the trans-European transport network and repealing Decision No 661/2010/EU (OJ L 348, 20.12.2013, p. 1).

▼ M3*Article 9a*

By 31 December 2025, the Commission shall draw up and submit to the European Parliament and to the Council a report evaluating the use of autonomous driving systems in the Member States. That report shall focus in particular on the potential impact of those systems on rules on driving and rest times. That report shall be accompanied, if appropriate, by a legislative proposal to amend this Regulation.

▼ B

CHAPTER III

LIABILITY OF TRANSPORT UNDERTAKINGS

*Article 10***▼ M3**

1. A transport undertaking shall not give drivers it employs or who are put at its disposal any payment, even in the form of a bonus or wage supplement, related to distances travelled, the speed of delivery and/or the amount of goods carried if that payment is of such a kind as to endanger road safety and/or encourages infringement of this Regulation.

▼ B

2. A transport undertaking shall organise the work of drivers referred to in paragraph 1 in such a way that the drivers are able to comply with Regulation (EEC) No 3821/85 and Chapter II of this Regulation. The transport undertaking shall properly instruct the driver and shall make regular checks to ensure that Regulation (EEC) No 3821/85 and Chapter II of this Regulation are complied with.

3. A transport undertaking shall be liable for infringements committed by drivers of the undertaking, even if the infringement was committed on the territory of another Member State or a third country.

Without prejudice to the right of Member States to hold transport undertakings fully liable, Member States may make this liability conditional on the undertaking's infringement of paragraphs 1 and 2. Member States may consider any evidence that the transport undertaking cannot reasonably be held responsible for the infringement committed.

4. Undertakings, consignors, freight forwarders, tour operators, principal contractors, subcontractors and driver employment agencies shall ensure that contractually agreed transport time schedules respect this Regulation.

5. (a) A transport undertaking which uses vehicles that are fitted with recording equipment complying with Annex IB of Regulation (EEC) No 3821/85 and that fall within the scope of this Regulation, shall:

▼B

- (i) ensure that all data are downloaded from the vehicle unit and driver card as regularly as is stipulated by the Member State and that relevant data are downloaded more frequently so as to ensure that all data concerning activities undertaken by or for that undertaking are downloaded;
 - (ii) ensure that all data downloaded from both the vehicle unit and driver card are kept for at least 12 months following recording and, should an inspecting officer request it, such data are accessible, either directly or remotely, from the premises of the undertaking;
- (b) for the purposes of this paragraph ‘downloaded’ shall be interpreted in accordance with the definition laid down in Annex IB, Chapter I, point (s) of Regulation (EEC) No 3821/85;
- (c) the maximum period within which the relevant data shall be downloaded under (a)(i) shall be decided by the Commission in accordance with the procedure referred to in Article 24(2).

CHAPTER IV

EXCEPTIONS

Article 11

A Member State may provide for longer minimum breaks and rest periods or shorter maximum driving times than those laid down in Articles 6 to 9 in the case of carriage by road undertaken wholly within its territory. In so doing, Member States shall take account of relevant collective or other agreements between the social partners. Nevertheless, this Regulation shall remain applicable to drivers engaged in international transport operations.

Article 12

Provided that road safety is not thereby jeopardised and to enable the vehicle to reach a suitable stopping place, the driver may depart from Articles 6 to 9 to the extent necessary to ensure the safety of persons, of the vehicle or its load. The driver shall indicate the reason for such departure manually on the record sheet of the recording equipment or on a printout from the recording equipment or in the duty roster, at the latest on arrival at the suitable stopping place.

▼M3

Provided that road safety is not thereby jeopardised, in exceptional circumstances, the driver may also depart from Article 6(1) and (2) and Article 8(2) by exceeding the daily and weekly driving time by up to one hour in order to reach the employer’s operational centre or the driver’s place of residence to take a weekly rest period.

▼ M3

Under the same conditions, the driver may exceed the daily and weekly driving time by up to two hours, provided that an uninterrupted break of 30 minutes was taken immediately prior to the additional driving in order to reach the employer's operational centre or the driver's place of residence for taking a regular weekly rest period.

The driver shall indicate the reason for such departure manually on the record sheet of the recording equipment, or on a printout from the recording equipment or in the duty roster, at the latest on arrival at the destination or the suitable stopping place.

Any period of extension shall be compensated by an equivalent period of rest taken *en bloc* with any rest period, by the end of the third week following the week in question.

▼ B*Article 13*

1. Provided the objectives set out in Article 1 are not prejudiced, each Member State may grant exceptions from Articles 5 to 9 and make such exceptions subject to individual conditions on its own territory or, with the agreement of the States concerned, on the territory of another Member State, applicable to carriage by the following:

- (a) vehicles owned or hired, without a driver, by public authorities to undertake carriage by road which do not compete with private transport undertakings;

CHAPTER V

CONTROL PROCEDURES AND SANCTIONS

Article 16

1. Where no recording equipment has been fitted to the vehicle in accordance with Regulation (EEC) No 3821/85, paragraphs 2 and 3 of this Article shall apply to:

- (a) regular national passenger services, and
- (b) regular international passenger services whose route terminals are located within a distance of 50 km as the crow flies from a border between two Member States and whose route length does not exceed 100 km.

2. A service timetable and a duty roster shall be drawn up by the transport undertaking and shall show, in respect of each driver, the name, place where he is based and the schedule laid down in advance for various periods of driving, other work, breaks and availability.

Each driver assigned to a service referred to in paragraph 1 shall carry an extract from the duty roster and a copy of the service timetable.

3. The duty roster shall:

▼M3

- (a) include all the particulars specified in paragraph 2 for a minimum period covering the day of control and the previous 56 days; those particulars must be updated on regular intervals, the duration of which may not exceed one month;

▼B

- (b) be signed by the head of the transport undertaking or by a person authorised to represent him;
- (c) be kept by the transport undertaking for one year after expiry of the period covered by it. The transport undertaking shall give an extract from the roster to the drivers concerned upon request; and
- (d) be produced and handed over at the request of an authorised inspecting officer.

▼M4

4. For the purpose of roadside checks, until a digital journey form is available, the driver shall be able to justify the use of the derogations under Article 7, third paragraph, and Article 8(2a) and (6a) by:

▼M4

- (a) carrying on board the vehicle a completed journey form, containing the information required in accordance with Regulation (EC) No 1073/2009, which the transport undertaking shall be responsible for providing the driver with prior to each journey; and
- (b) carrying on board the vehicle paper or electronic copies of such journey forms which cover the previous 28 days, and, from 31 December 2024, the previous 56 days.

The obligation in point (b) of the first subparagraph shall cease to apply at the latest when the vehicle uses a tachograph allowing the recording of the type of passenger service referred to in paragraph 5.

For national services, the journey form for international services may be used, indicating its use for national service. The Commission may adopt an implementing act establishing the format of the journey form for national services to simplify checks on compliance, if appropriate. That implementing act shall be adopted in accordance with the examination procedure referred to in Article 24(2a).

No later than 31 December 2026, the Commission shall assess the options for digitalising the journey form for drivers engaged in occasional passenger services in terms of feasibility, cost-effectiveness and its impact on enforceability and working conditions of drivers and, if appropriate, present to the European Parliament and the Council a legislative proposal regarding such digitalisation.

That assessment shall cover the development of a digital journey form containing the information required in accordance with Regulation (EC) No 1073/2009 to allow such information to be electronically registered prior to the start of the journey in a multilingual interface to which operators have access. To that end, the Commission may also explore the possibility of developing one or more new modules for the Internal Market Information System established by Regulation (EU) No 1024/2012 of the European Parliament and of the Council ⁽¹⁾.

5. To ensure uniform application and enforcement of Article 7, third paragraph, and Article 8(2a) and (6a), the Commission shall, at the earliest occasion of reviewing Commission Implementing Regulation (EU) 2016/799 ⁽²⁾ or any implementing act replacing it, and at the latest by 23 November 2025, adopt implementing acts laying down appropriate technical specifications that enable the recording and storage on the tachograph of data relating to the type of passenger service, namely regular or occasional passenger service. The date of application of those implementing acts shall be set after consulting the relevant stakeholders. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 24(2a).

⁽²⁾ Commission Implementing Regulation (EU) 2016/799 of 18 March 2016 implementing Regulation (EU) No 165/2014 of the European Parliament and of the Council laying down the requirements for the construction, testing, installation, operation and repair of tachographs and their components (OJ L 39, 26.5.2016, p. 1).

▼B*Article 17*

1. Member States, using the standard form set out in Decision 93/173/EEC ⁽¹⁾, shall communicate the necessary information to the Commission to enable it to draw up every two years a report on the application of this Regulation and Regulation (EEC) No 3821/85 and developments in the fields in question.
2. This information shall be communicated to the Commission not later than 30 September of the year following the end of the two-year period concerned.
3. The report shall state what use has been made of the exceptions provided for in Article 13.
4. The Commission shall forward the report to the European Parliament and to the Council within 13 months of the end of the two-year period concerned.

▼M4*Article 17a*

By 31 December 2028, the Commission shall draw up a report assessing the consequences of the provisions of this Regulation relating to the occasional passenger services sector in respect of road safety and social aspects, in particular the working conditions of drivers. The Commission shall send that report to the European Parliament and the Council. If it considers it to be appropriate, the Commission shall make relevant legislative proposals.

▼B*Article 18*

Member States shall adopt such measures as may be necessary for the implementation of this Regulation.

*Article 19***▼M3**

1. Member States shall lay down rules on penalties applicable to infringements of this Regulation and Regulation (EU) No 165/2014 and shall take all measures necessary to ensure that they are implemented. Those penalties shall be effective and proportionate to the gravity of the infringements, as indicated in Annex III to Directive 2006/22/EC of the European Parliament and of the Council ⁽²⁾, as well as dissuasive and non-discriminatory. No infringement of this Regulation and of Regulation (EU) No 165/2014 shall be subject to more than one penalty or procedure. The Member States shall notify the Commission of those rules and measures, along with the method and criteria chosen at national level for assessing their proportionality. The Member States shall notify without delay any subsequent amendment affecting them. The Commission shall inform Member States of those rules and measures, and of any amendments thereto. 2. The driver shall produce the evidence referred to in paragraph 1 upon request.

3. A driver who is employed or at the disposal of more than one transport undertaking shall provide sufficient information to each undertaking to enable it to comply with Chapter II.
